Casa Indiana Senior Housing Development

Petition of Support

We, the undersigned, fully support HACE's (aka Hispanic Association of Contractors and Enterprises) proposed development of Casa Indiana a 39,000 square feet senior housing development to be located at 2935-65 N. 2nd Street. This proposed development will provide 46 units of affordable housing to elderly residents. HACE has been instrumental in reversing decades of disinvestment in this community through economic development initiatives that: encourage the growth of businesses and jobs; create safe affordable housing; and improve the quality of life of community residents through the provision of social services and other community activities.

We eagerly anticipate and welcome the positive impact that this housing development activity will have on our neighborhood and support HACE's efforts towards the common goal of positively impacting the lives our community's most senior residents.
